Calcurion Maths Worksheets

A-Level Further Mathematics

Topic: Core Pure 1 – Vectors

SOLUTIONS

Full worked solutions follow standard Further Mathematics methods for Core Pure 1.

Use modulus-argument form, de Moivre, Argand geometry, summation formulae, Vieta formulae, matrix algebra, standard transformation matrices, induction (base + step), and vector methods (scalar/vector product, lines and planes) as appropriate to each question.

Answers should be simplified to the form requested (Cartesian, polar, closed form, etc.).
